ABC Corp is significantly misaligned to a net-zero pathway. If all companies had the same investment alignment and transition preparedness as this company, it is estimated that the world would warm by 2.4 °C above pre-industrial levels. The company's exposure is highly misaligned which reflects that without any management or investment, the company would be expected to overshoot its emissions budget by 1,044 Mt CO2e or 261%. Meanwhile, the company's management of low carbon transition issues is strong and it is expected that the company will decrease emissions by 40% compared to its baseline projection.
